Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 5, 6, 8, 11, 13, 14 and 18-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Pinciario.

Pinciario discloses a bath comprising all the featured elements of the instant invention, note specifically neck water outlet fitting 22a with pillow 14 and shoulders water outlet fitting 21e/22e with pillow 14c/34; body nozzles 22c/22d.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 4, 10 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pinciario.

Pinciario discloses a bath comprising all the featured elements, except the water connections being provided in different upper wall or rim sections; and the flow of water being

Art Unit: 3752

wider than it is deep. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the water connections in different upper wall sections of the hot tub of Pinciario since such a modification is merely the duplication of parts and it is known to provide multiple seating areas in a hot tub and it would be advantageous to provide such outlet fittings/pillow arrangements for all the users. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have the flow of water being wider than it is deep, since with such a modification a larger surface area can be covered over a person's neck or shoulders.

Allowable Subject Matter

5. Claims 3, 7, 9 and 15-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ludlow, Leaverton et al and Larsen disclose various types of neck and shoulder jet pillows for hot tubs.
